

**REQUEST FOR QUALIFICATIONS
FOR ENGINEERING SERVICES
NEW RIVER RESOURCE AUTHORITY
Dublin, Virginia**

Pursuant to the Virginia Public Procurement Act, the New River Resource Authority invites proposals from qualified firms/individuals for general professional engineering services required to support a variety of infrastructure projects within the Authority's jurisdiction. The Authority proposes to award one or more annual contracts (with two optional years) for quality civil engineering services. Services are anticipated to include general consulting, project design, inspection, construction administration, representation with regulatory agencies, and etc....

Submittals should include but not limited to the following information:

1. Experience and qualification of individuals available for assignment to the project.
2. Proximity of offeror's office to the Authority's jurisdiction.
3. Relevant experience in the following areas:
 - Routine solid waste operations analysis
 - Minor Solid Waste Permit Amendments
 - Leachate Management system analysis
 - Leachate sampling/analytical
 - Landfill gas management system analysis
 - Air Permitting
 - Wetlands and WOUS
 - Financial Assurance analysis
 - Closure/Post Closure Care
 - Convenience Centers for recycling and solid waste collection
 - Fleet Management and Collections Analysis
4. Demonstrate ability to complete projects on schedule.

Please email the submittals to jlevine@wildblue.net subject "RFQ – Engineering Services – New River Resource Authority" on or before 2 p.m. on Wednesday, October 10, 2012. Please do not hesitate to email questions or call me at 540-674-1677. If you prefer to mail the submittal must be received by the deadline to Joseph R. Levine, PE, Executive Director, Post Office Box 1246, 7100 Cloyd's Mountain Road, Dublin, Virginia 24084.

Any submittals received after this deadline will not be considered. Any cost associated with the submittal shall be the responsibility of the Firm(s) or individuals submitting.
